

HUMMINGBIRD DISCO

Services & Pricing Guide

Hello there!

Humans use paper every day, but we rarely think about it. It's cheap, fragile, easy to get and easy to get rid of.

But paper can also be sustainable, versatile, gorgeous, and long-lasting. Let me show you what's possible.

My name is Emily, and I'm the designer and maker behind Hummingbird Disco. I create bespoke paper florals that make you look—and think— twice.

A handwritten signature in black ink that reads "Emily".

Why Paper Flowers?

1 Longevity
Unlike live flowers, paper flowers last indefinitely, making them the perfect keepsake from your wedding.

2 Customization
No need to worry about what's in season. Paper flowers can be crafted in any color or style, even beyond what nature provides, ensuring a bespoke look for your special day.

3 Eco-friendly
Paper flowers are low waste and don't require pesticides, chemicals, or water to grow.
